Invitation To Apply

The NCI-funded T32 Postdoctoral Training Program on Molecular and Translational Oncology Research (MTOR), at Weill Cornell Medicine, is now accepting applications from early career scientists, interested in translational cancer research. Directed by Drs. Paraskevi Giannakakou and John Blenis, MTOR offers a unique training opportunity.

MTOR trainees will:

- Receive training in the principles and application of molecular and translational oncology.
- Be immersed in the rapidly evolving field of Precision Medicine, under the instruction of our 17 outstanding preceptors, and their clinical collaborators, within the dense MTOR interactome!
- Be mentored jointly by a preceptor and a clinical collaborator on a bench-to-bedside and back research project.
- Benefit from the expanded focus on translational cancer research and resources of Weill Cornell Medicine and the Meyer Cancer Center.
- Participate in international conferences and career development workshops.
Molecular and Translational Oncology Research (MTOR)
Postdoctoral Training Program

Eligibility Requirements:
- Must be citizens or permanent residents of the United States
- Must hold a PhD or MD or PhD/MD degree
- Must have a solid foundation in basic science

Program Diversity:
Candidates from historically underrepresented groups are strongly encouraged to apply

Program Requirements:
- Complete mandatory didactic coursework (MTOR-specific course and Responsible Conduct of Research) in 1st year
- Develop translational project
- Second year funding will be awarded upon competitive renewal

Program Directors

Paraskevi (Evi) Giannakakou, PhD
Professor of Pharmacology in Medicine
Director of Laboratory Research,
Division of Hematology & Oncology
Weill Cornell Medicine

John Blenis, PhD
Professor of Pharmacology
Department of Pharmacology
Weill Cornell Medicine
