General Internal Medicine Newsletter

Message from Division Leadership
Here’s to 2024! As I look back and reflect on the past year, it is with a sense of humble pride to be part of a division that has continued to grow and expand upon WCM’s tripartite mission to care, discover and teach. Because of each of you in GIM, the impact of our division’s robust health services research portfolio, world-class clinical care and innovation initiatives, and opportunity to mentor and train the next generation continues to receive recognition, praise, and support. In 2023, our division not only encountered, but succeeded in responding to challenges inherent in health care, exciting leadership changes at the college, department and division level, and new opportunities to advance the myriad of goals that advance academic healthcare. In this edition of our quarterly newsletter, you will read about a host of faculty honors and accomplishments, updates on the growth of our programs and initiatives that span WCM’s tripartite mission, and other points that I hope will reinforce your pride in being part of GIM and the WCM family. At the heart of GIM’s forward momentum is our dedicated faculty and staff who make this possible. For that, I extend our profound appreciation for each of you for all that you do, and everything that is sure to come in the new year!

Blake Rambo, JD, MBA | Division Administrator

Clerkship Director Dr. Brian Eiss, Associate Clerkship Director Dr. Emily Taylor, or the Interim Clerkship Coordinator Kathryn Zhu.

Research Updates
Margaret McNairy, MD, Associate Professor of Medicine, received a $6.9M grant from the National Heart, Lung & Blood Institute for a study entitled “A longitudinal cohort study to evaluate cardiovascular risk factors and disease in Haiti – 2.”

Cornell Center for Health Equity (CCHeq)
Join us at the 2024 Cornell Center for Health Equity Symposium, themed "Advancing Health Justice: Policy, Practice and Engagement" on April 11, 2024 to showcase your scholarly work in health equity! This symposium will inform our academic, community, and student members about the diverse research efforts ongoing across the campuses in the area of health equity, and stimulate discussions through face-to-face dialogue to kindle new and expanded research collaborations and community partnerships. Learn more about our poster session call for abstracts here. Abstract submission due date: January 31, 2024, at 5 p.m. ET

CCHeq Funding Opportunity | APPLY TODAY!
CCHeq is committed to supporting novel and innovative research, particularly projects focused on the relationship between structural racism and health outcomes. To that end, we annually offer one-year Pilot Project grants of up to $50,000. Additionally, we support one-year Community Partnership Building Project grants of up to $5,000 aimed at establishing or strengthening collaborative partnerships that will enable meaningful involvement of community stakeholders in health equity research. Pilot Project Grant ($15k-$50k)

Eduction Updates
The Ambulatory Care Clerkship team wants to thank all preceptors, tutor group facilitators and our Site Directors for their hard work mentoring and educating the next generation of medical students as they rotate through this clerkship on their roads to becoming physicians with various specialties.

The clerkship is still looking for additional clinical preceptors who are interested in working with medical student clerks during their 4-week Ambulatory Care Clerkship. The most common approach is to host a student two half day sessions each week on the days that are most convenient for you. Please email

Community Partnership Building Grant ($5k)
The applications for both programs were released on December 1, with deadlines in February. Funded grants will start July 1, 2024.

The Center hosts a series of Health Equity Seminars on the first Friday of the month. Sessions are broadcasted via webinars for remote attendees. These colloquia are intended for Center members to share their work on various equity-focused and social justice issues and obtain multi-disciplinary input on works in progress. For a list of presentations and recordings for this quarter, please click here. Join us at our next seminar on Friday, January 5, Dr. Monika Safford will give a talk on "The REasons for Geographic And Racial Differences in Stroke (REGARDS) cohort study: opportunities for health equity research", register here.

Become a Member of the Cornell Center for Health Equity today! Find out more about funding opportunities and center activities by completing a membership application!

Quality Improvement Academy (QIA)
As QIA closes out the year, we are excited to announce we are now accepting applications for the Class of 2025. If you are interested in applying, click here for details on the program, application process, and terms of participation. Application deadline is January 21, 2024.

To learn more about QIA and our initiatives, please visit us on our website.

Appointments & Promotions
Effective December 1, 2023, the Division of General Internal Medicine is pleased to announce the promotion of Madeline Sterling, MD, to Associate Professor of Medicine. She began to focus her research on the lived experience of heart failure patients, demonstrating that many had substantial hearing and vision impairment, further increasing reliance on their home health aides for tasks like reading food labels or interpreting written recommendations from healthcare professionals. Her reports were published in high impact journals and demonstrated a key attribute of all her work: she has a true gift for engaging investigators and community partners as collaborators in her research. We are excited about Dr. Sterling’s accomplishments and promotion to Associate Professor of Medicine and look forward to her future achievements at Weill Cornell Medicine.

Matthew McCarthy, MD, is transitioning to NYP-Queens Hospital to assume new roles as Vice Chief of Inpatient Clinical Operations for the Department of Medicine and Chief of the Division of Hospital Medicine effective January 2, 2023.

Honors & Awards
Arnab Ghosh, MD, Assistant Professor of Medicine, was appointed a National Institute for Health Climate and Health scholar, one of seven from around the country to help lead climate change efforts at the NIH. Read more here!
