

The **Molecular and Translational Oncology Research (MTOR)** seeks to recruit and train highly motivated postdoctoral associates in translational cancer research. MTOR emphasizes research training at the interface of basic biology and clinical/translational oncology. Funding is provided for up to two years based on research progress. For additional information and to view the roster of our 22 participating faculty members please visit:

<http://medicine.weill.cornell.edu/mtor>

Candidates from historically underrepresented minorities in the biomedical workforce are strongly encouraged to apply.

Trainees will:

- Develop knowledge and skillset towards a translational research career
- Benefit from strong multidisciplinary mentorship
- Attend program-specific didactics and career development workshops
- Receive funding to present their work at a conference or attend a workshop

Eligibility Requirements:

- Must be citizens or permanent residents of the United States
- Must commit one full year in training (07/01/2021 – 06/30/2022)
- Must hold a PhD or MD or PhD/MD degree

Applications should include:

- NIH style biosketch
- Letter of Intent describing candidate's education, research experiences, goals, and how MTOR could advance their career (up to 1 page).
- A nomination letter from applicant's preceptor
- An additional letter of recommendation
- Brief description of a translational cancer research project (up to 1 page)

Application Guidelines for external applicants:

Contact our program manager, Dr. Mylonas, to coordinate your application process and facilitate communication with T32 mentors from our participating faculty.

Application Deadline: April 20, 2021, 5 pm EST

For inquiries please contact Dr. Spyridon Mylonas at spm2003@med.cornell.edu.
